Bitter Weather Cuts Stocks Of U.K. Food

By Charles Nichols
LONDON.—British already acutely aware of the damage done to the nation's industrial production by six weeks of bitter weather, started Thursday that fresh weather is seriously endangering the food stocks as well.

As blizzards continued to whip widely-separated parts of the country, agricultural experts attempted to assess the effects on the farm front. They found:

Thousands of lambs, caught by the blizzards in isolated pasture lands, have died of cold.

Potatoes and other root crops, including sweet potatoes, have been heavily damaged.

Fodder supplies have been depleted dangerously by the severity of indoor rationing during winter storms.

The effect on the nation's land, already scarce, in the light of the country, agricultural experts attempted to assess the effects on the farm front. They found:

U.S. Protests Soviet Moves In Hungary

WASHINGTON, (AP)—Fresh tension between Russia and the western powers appeared to be building up Thursday with disclosure of a United States protest against Soviet interference with Hungary's non-Communist government.

Diplomatic authorities here said the note was sent to Moscow by State Secretary Marshall shortly before his departure Wednesday for the Big Four foreign ministers conference opening there Monday. Copies went to Britain and the three-power allied control council at Budapest.

The protest reflected American concern over bolstering Hungary, like Greece, against the Russian advance.

For weeks the Hungarian Communist and other parties have been clamoring for the removal of the Soviet army from Hungary.

The most recent incident was the arrest of a Hungarian minister of parliament by Russian soldiers.

The arrest was reported by the official Hungarian news agency on Thursday.

The protest also reflected American concern over bolstering Hungary, like Greece, against the Russian advance.

Court Upholds Fine on Lewis

WASHINGTON, (AP)—The United States supreme court Thursday upheld the contempt conviction of Lewis and Clark.

The high tribunal at the same time upheld the \$10,000 fine imposed on Lewis and Clark.

The court majority ruled that the National Labor Relations board's decision to fine Lewis and Clark was proper.

Canada Will Get More Jet Planes
MONTREAL, (CP)—Canada has secured more jet-powered planes, Defense Minister Clegg announced today.

In a speech at the annual meeting of the Quebec provincial committee of the Air Cadet League of Canada, he said the R.C.A.P. this year would have the equivalent of about eight squadrons, flying Lancaster, North Star, Dakota, Mitchell, Harvard, Gloucester and, if they arrive this year, jet-powered Mustang.

Canada at present has only two jet squadrons and they are under substantial expansion.

The president, en route home from a three-day good-will visit to Mexico, stressed the value of the jet-powered planes in the defense of Canada.
